

EMPLOYMENT OPPORTUNITY

TECHNICAL MANAGER, MAGNETICS

Magnet-Physics Inc. (MPI) seeks an engineer with a magnetics-, electrical- or mechanical engineering background, management capabilities and an entrepreneurial spirit, to run the technical operations of an established, successful, and highly specialized small magnetic equipment company. The candidate would be developed as the successor to the long-time president and technical manager who plans to retire within the next 1 to 3 years.

YOUR PROFILE

- You have strong basic engineering and technical skills.
- You have good computer literacy and can work comfortably with Microsoft Word, Excel, PowerPoint, and Microsoft Teams.
- You are self-motivated with good organizational skills, and also enjoy working as part of a cooperative team.
- You have high ethical standards and personal integrity.
- You have good communication skills and are comfortable in social situations.
- You are characterized by independent and solution-oriented work.
- You can build and maintain trust with clients and the Germany home office.
- You have legal authorization to work in the United States.

YOUR TASKS

- Technical sales of magnetizing and magnetic test equipment and services.
- Provide follow-up technical support for all Magnet-Physik products and services.
- Manage and do hands-on work in the magnetics test laboratory.
- Prepare test reports and interface with clients.
- Together with the Quality Manager, manage and operate the calibration laboratory and maintain the ISO-accreditation.
- Attend trade shows and technical conferences to build and maintain customer base, and stay current with market conditions.

Although at least 3 to 5 years of practical engineering work experience is preferred, a recent engineering graduate would be considered if the person has a strong engineering background and good interpersonal skills. The successful candidate will need to work in multiple roles within the company and be willing to do on-the-job training in the technical field of magnetics. A high level of English language proficiency is a must; German language skills are a big plus.

THE COMPANY:

MPI is a small business that provides North American sales and technical support for the products of Magnet-Physik Dr. Steingroever GmbH, a 70-person company based in Cologne, Germany, with international reach. Established in 1999 and located in a 1,566 square foot leased facility on the far Northeast side of Indianapolis, Indiana, USA, MPI also offers on-site magnetic testing services and operates an ISO/IEC 17025:2017-accredited calibration laboratory for magnetic quantities. MPI has two full-time people at present but has significant growth potential.

WHAT WE CAN OFFER TO YOU:

- A challenging work environment with growth opportunities.
- Close working relations and collegial interactions with the other departments within the overall organization.
- A high level of independence to guide and grow the company.
