

EMPLOYMENT OPPORTUNITY Magnetics Lab Technician

Magnet-Physics Inc. (MPI) is a successful, growing, highly specialized small business. We provide North American sales and technical support for the products of our parent company, Magnet-Physik Dr. Steingroever GmbH, based in Cologne, Germany, with global reach. MPI was established in 1999. Located in the Northeast corner of Indianapolis, Indiana, MPI also offers on-site magnetic testing services and operates an ISO/IEC 17025:2017-accredited calibration laboratory for magnetic measurement equipment.

MPI is seeking a full-time technician to support our growing magnetic material testing and calibration services. MPI is developing plans to achieve significant growth in the next few years. These lab services are greatly valued by our customers and are an important component of our growth strategy.

The successful candidate will be detail-oriented, customer-focused, organized, and efficient. Our environment is very team focused with the opportunity to share ideas and take initiative.

We seek 2 years of relevant experience, but anyone with a combination of appropriate experience and/or education will be considered. In-house training will be provided, where needed for the right candidate. This is an excellent opportunity for an individual who is looking to build their career and skills in a growth focused small business.

YOUR PROFILE

- Understanding of basic electrical or mechanical technology principles and related test equipment and procedures.
- Knowledge of magnetics and magnetic circuits is a definite plus.
- Enjoy hands-on work, eager to learn new skills.
- Process oriented, understands the importance of working methodically.
- Knowledge of Microsoft Excel and Word.
- CAD or 3D printing skills is a plus.
- A team-player of good character.
- Have good Interpersonal communication skills.

YOUR TASKS

- Use test equipment and follow specific processes to prepare and test customer material samples to determine and document their magnetic properties.
- Use test equipment and follow specific processes to calibrate customer-owned test equipment to document and certify operating performance.
- Help prepare test reports, presentations and other written communications using MS Office.
- Other tasks as needed.

WHAT WE CAN OFFER TO YOU:

- A relaxed yet challenging work environment with opportunities to learn new skills and grow with the business.
- Close working relations and collegial interactions with the Indianapolis team and the parent company in Cologne, Germany.
